Our inability to implement our business strategy or effectively manage our growth, could have an adverse effect on our business, results of operations and financial condition.***

Our company was incorporated on June 15, 2015 with Registrar of Companies, Maharashtra, Mumbai. Initially, we have commenced our operations as traders and subsequently diversified into advisory and consultancy business in December, 2016. With our limited operating history, potential investors may not be able to analyze our past performances or future prospects.

As per the financials, since the first year of beginning operations in the financial advisory space, our revenues have increased from Rs 379.50 lakhs in FY 23-24 to Rs 680.14 lakhs in FY 24-25 and Net Profit After Tax (PAT) for the above mentioned years increased from 106.89 to 131.93 lakhs respectively. For further details of our financial position and information please refer to section titled "*Financial Statements*" on page no. 88 of this Draft Letter of Offer.

Further, we cannot assure you that our growth strategies will be successful or that we will be able to continue to expand our operations. In order to manage our growth effectively, we must implement, upgrade and improve our operational systems and procedures on a timely basis. If we fail to do so or if there are weaknesses in our existing procedures, we may not be able to meet our customers' needs effectively or operate our business effectively. Moreover, our ability to sustain our rate of growth depends significantly upon our ability to select and retain key managerial personnel, maintaining effective risk management policies and training managerial personnel to address emerging challenges.

We cannot assure you that our existing or future management, operational and financial systems, procedures and controls will be adequate to support future operations, or establish or develop business relationships beneficial to future operations. Failure to manage growth effectively could have an adverse effect on our business and results of operations

12. *We do not own the Branch office from where we operate. Any dispute in relation to the lease of our premises would have a material adverse effect on our business and results of operations*

We do not own the premises on which our Branch offices. Our Company operates from rented and leased premises at various locations. All the agreements are executed on stamp papers and signed by authorised representatives; however; they are not registered with the relevant government bodies. If any of the owners of these premises do not renew the agreements or renews such agreements on terms and conditions that are unfavourable to our Company, it may suffer a disruption in our operations or we may have to pay increased rentals which could have a material adverse effect on our business, financial condition and results of operations. For more information, please refer chapter titled "*Our Business*" on page no. 57 of this Draft Letter of Offer

13. *Substantial portion of our revenues are dependent on few customers and the loss of, or a significant reduction of one or more such customers could adversely affect our financial performance.*

We currently derive our entire operational revenues from providing financial services to our clients. We depend on a limited number of customers for a significant portion of our revenues. Revenue from our top 10 customers. Any perceived decline in our quality standards, growing competition and any change in demand may adversely affect our ability to retain or acquire customers and consequently affect our financials. We cannot assure that we shall generate the same quantum of business, or any business at all from our top customers, and any loss of business from one or more of them may adversely affect our revenues and results of operations. Also, the composition and revenue generated from each of the customers might change as we continue to add new customers in the normal course of business. While we are constantly striving to increase our customer base and reduce dependence on any particular customer, there is no assurance that we will be able to broaden our customer base in any future periods or that our business or results of operations will not be adversely affected by a reduction in demand or cessation of our relationship with any of our major customers.

14. *A significant decrease in our liquidity could negatively affect our business and reduce client confidence.*

Our business depends on maintaining adequate liquidity to meet operational requirements, regulatory obligations, and client expectations. Any significant decline in liquidity, whether due to market volatility, funding constraints, or adverse economic conditions, could impair our ability to operate efficiently, limit growth opportunities, and reduce client confidence in our services.

15. Our ability to assess, monitor and manage risks inherent in our business suffers from the standards of some of our counterparts. Inability to effectively manage our risk management systems can adversely affect our business's, financial conditions, and results of operations.

Our business involves exposure to counterparties whose risk management and compliance standards may not match ours. Any weakness on their part could expose us to defaults, losses, or reputational harm. If our own risk assessment, monitoring, and mitigation systems prove inadequate, it may materially impact our business, financial condition, and results.

16. Our subsidiary Company has incurred substantial indebtedness in form of borrowings with a fixed repayment schedule as well as borrowings which are repayable on demand. This could expose us to various risks which may have an adverse effect on our business and results of operations.

As on March 31, 2025, we had 1454.37 lakhs of outstanding debt as per our Consolidated Financial Statements. This indebtedness includes unsecured loans of 49.1 lakhs which are repayable on demand. Sudden recall for the repayment may disrupt our operation and may force us to opt for funding at higher interest rates, resulting in higher financial burden

Further, in the event that we fail to meet our debt servicing obligations under our financing documents, the relevant lender(s) could declare us to be in default, accelerate the maturity of our obligations or even sell our Company's movable and immovable assets. We cannot assure investors that in the event of any such acceleration we will have sufficient resources to repay these borrowings. Failure to meet obligations under debt financing agreements may have an adverse effect on our cash flows, business and results of operations. Our ability to meet our debt service obligations and to repay our outstanding borrowings will depend primarily upon the cash flows generated by our business. We cannot assure you that we will generate sufficient cash to enable us to service existing or proposed borrowings. Incurring significant indebtedness may limit our flexibility in planning for or reacting to changes in our business & industry and limit our ability to borrow additional funds. Further, our level of indebtedness has important consequences to our Company, such as:

- Increasing our vulnerability to general adverse economic, industry and competitive conditions;
- Limiting our flexibility in planning for, or reacting to, changes in our business and the industry; affecting our credit rating;
- Limiting our ability to borrow more money both now and in the future; and
- Increasing our interest expenditure and adversely affecting our profitability, since almost all of our debt bears interest at floating rates.

If any of these risks were to materialize, our business and results of operations may be adversely affected.

17. We have not made any provisions for decline in value of our investments

As on March, we hold investments in Unquoted Equity Instruments to Rs 563.50 lakhs as per Financial Statements. We have not made any provision for the decline in value of these investments and hence as and when these investments are liquidated, we may book losses based on the actual value we can recover for these investments and if lower than the cost, the same could adversely affect our results of operations.

18. We have experienced negative cash flows and any negative cash flows in the future could adversely affect our financial conditions and results of operations

We have experienced negative cash flows in the recent past, the details of our standalone cash flows are given in the table below:

(Rs in lakhs)

Particulars	FY Sept 2025	FY 2025	FY 2024	FY 2023
Cash Flow from Operating Activities	(42.68)	806.89	(443.70)	(90.47)
Cash Flow from Investing Activities	(58.27)	138.93	(263.03)	44.13
Cash Flow from Financing Activities	98.54	(1,021.87)	761.12	60.68

We have experienced negative cash flows in the recent past, the details of our consolidated cash flows are given in the table below:

(Rs in lakhs)			
Particulars	FY Sept 2025	FY 2025	FY 2024
Cash Flow from Operating Activities	272.43	18,546.60	(7,360.46)
Cash Flow from Investing Activities	(377.99)	(2,330.90)	(14,189.67)
Cash Flow from Financing Activities	97.91	(16,893.43)	22,097.74

Sustained negative cash flows, especially if their operational in nature, could adversely affect our future financial condition

19. Downturns or disruptions in the financial and capital markets could reduce transaction volumes, and could cause a decline in the business and impact our profitability.

As a financial advisory and merchant banking company, our business is materially affected by conditions in the domestic and global financial and capital markets and economic conditions in India and throughout the world. Our operational revenues are derived from fees from advisory services, consultancy income and issue management across the equity capital market. Our revenue, scale of operations and, consequently, our profitability are largely dependent on favorable market conditions and political environment, investor sentiment, price levels of equity shares and other securities as well as other factors that affect the financial and capital markets in India and abroad. Capital markets are exposed to additional risks, including liquidity, interest rate and foreign exchange related risks. Any downturn or disruption in the markets specifically would have a material adverse effect on our results of operations. Even in the absence of a market downturn, we are exposed to substantial risk of loss due to market volatility. A market downturn would likely lead to a decline in the volume of transactions that we execute for our customers as well as a decrease in prices. Any decline in transactions would lead to a decline in our revenues received from fees

20. In addition to normal remuneration, other benefits and reimbursement of expenses some of our directors (including our Promoter) and Key Management Personnel may be interested in our Company to the extent of their shareholding and dividend entitlement in our Company.

Some of our Directors (including our Promoter) and Key Management Personnel may be interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our directors will always act to resolve any conflicts of interest in our favor, thereby adversely affecting our business and results of operations and prospects

21. We face intense competition in our businesses, which may limit our growth and prospects.

Our Company faces significant competition in the businesses that we are involved in. In particular, we compete with other merchant bankers or financial advisory firms, both in India and abroad; and public and private sector funds operating in the markets in which we are present. In recent years, large international banks have also entered these markets. For further details, please refer to the paragraph titled "Competition". We compete on the basis of a number of factors, including execution, depth of

product and service offerings, innovation, reputation and price. Our competitors may have advantages over us, including, but not limited to:

- Substantially greater financial resources;
- Longer operating history than us in certain of our businesses;
- Greater brand recognition among consumers;
- Larger customer bases in and outside India; or
- More diversified operations which allow profits from certain operations to support others with lower profitability.

In addition, it is possible that certain large financial services groups may decide to begin offering services that we believe would be our differentiating factor. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures.

22. *We are dependent on a number of key personnel, including our senior management, and the loss of, or our inability to attract or retain, such persons could adversely affect our business, results of operations and financial condition.*

Our performance depends largely on the efforts and abilities of our senior management, key personnel and the performance and productivity of our employees. We believe that the expertise, experience and services of our Promoter Mr. Vipul Lathi, in particular and other key managerial personnel are valuable for the development of business and the strategic directions taken by our Company. For details in relation to the experience and other details of our senior management and key management personnel, see section titled “*Our Management*” on page no. 76 of this Draft Letter of Offer. There is no assurance, however, that these individuals or any other member of our senior management team will not leave our Company or join a competitor. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. We may require considerable time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an adverse effect on our business and our results of operations.

The continued operations and growth of our business is dependent upon our ability to attract and retain personnel who have the necessary and required experience and expertise. Competition for qualified personnel with relevant industry expertise in India is intense. A loss of the services of our key personnel may adversely affect our business, results of operations and financial condition.

23. *Our Company along with our subsidiary companies in the past has entered into certain related party transactions and may continue to do so in the future*

Our Company along with our subsidiary companies in the past has entered into certain related party transactions with our Promoters, Directors, and their relatives in the past. For details, please refer to “*Related Party Transactions*” under section titled “*Financial Statements*” on page no 88 of this Draft Letter of Offer. While our Company believes that all such transactions have been conducted on the arm’s length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation.

24. *Our Promoter and Managing Director, holds a certificate of practice from the Institute of Chartered Accountants of India (“ICAI”) and is also in whole-time employment in our Company.*

As per the Code of Ethics of the Institute of Chartered Accountants of India (ICAI) and the provisions of the CA Act read with the CA Regulations, a chartered accountant in practice shall not engage in any business or occupation other than the profession of accountancy, except with the permission granted by the Council. Mr. Vipul Lathi, Promoter & Managing Director of our Company also holds a certificate

of practice as a Chartered Accountant from the ICAI and has not surrendered or otherwise applied for such permission from the Council of the ICAI. This may subject him to action (punitive or otherwise) from ICAI in the future which may affect profitability, reputation and business of the Company.

25. *Our Company does not have insurance coverage to protect us against certain operating hazards and this may have a material adverse effect on our business.*

We are not insured for the risks associated with our several businesses, such as insurance cover against loss or damage by fire, explosion, burglary, theft and robbery. There can be no assurance that any claim under the insurance policies maintained by us will be honored fully, in part or on time, to cover all material losses. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business and results of operations could be adversely affected. For details of the insurance coverage taken by us see “*Business Overview - Insurance*” on page no. 57 of this Draft Letter of Offer

26. *Our Promoter and Director Mr. Vipul Lathi was a director in one of the Company which was disqualified in past due to non-filing of Annual Returns / Balance Sheets.*

Our Promoter and Director Mr. Vipul Lathi was the director in one of the Company which was disqualified due to non-filing of Annual Returns / Balance Sheets for a continuous period of 3 years. However, as on date of this Draft Letter of Offer the respective DIN of our Director has an ‘Approved’ status as per MCA.

27. *Our inability to manage growth could disrupt our business and reduce our profitability.*

We propose to expand our business activities in coming financial years. We expect our future growth to place significant demands on both our management and our resources. This will require us to continuously evolve and improve our operational, financial and internal controls across the organisation. In particular, continued expansion increases the challenges we face in:

- Our ability to acquire and retain clients for our services;
- Services, products or pricing policies introduced by our competitors;
- Capital expenditure and other costs relating to our operations;
- The timing and nature of, and expenses incurred in, our marketing efforts;
- Recruiting, training and retaining sufficient skilled technical and management personnel;
- Adhering to our high quality and process execution standards;
- Maintaining high levels of customer satisfaction;
- Developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, and other internal systems

You should not rely on yearly comparisons of our results of operations as indicators of future performance. It is possible that in some future periods our results of operations may be below the expectations of public, market analysts and investors. If we are unable to manage our growth it could have an adverse effect on our business, results of operations and financial condition.

28. *Our Promoter and Promoter Group will continue to retain our substantial shareholding in us after the Offer, which will allow them to exercise significant influence over us and potentially create conflicts of interest.*

Our Promoter and Promoter Group may beneficially own approximately 34.31% of our post-offer equity share capital. As a result, the Promoter Group may have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company’s best interest. In addition, for so long as the Promoter Group continues to exercise significant control over the Company, they may influence the material policies of the Company in a manner that

could conflict with the interests of our other shareholders. The Promoter Group may have interests that are averse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

29. *Any damages caused by fraud or other misconduct by our employees could adversely affect our business, results of operations and financial condition.*

We may be exposed to operational risk arising from inadequacy or failure of internal processes or systems or from fraud. We may be susceptible to fraud or misconduct or theft by employees or outsiders, unauthorized transactions by employees and operational errors. Employee or executive misconduct could also involve the improper use or disclosure of confidential information, which could result in regulatory sanctions and reputational or financial harm, including our brand. Our management information systems and internal control procedures are designed to monitor our operations and overall compliance. However, they may not be able to identify non-compliance and/or suspicious transactions and / or pilferage in a timely manner or at all. In addition, certain internal control processes are carried out manually, which may increase the risk of human error, tampering or manipulation which may result in losses that may be difficult to detect. As a result, we may suffer monetary losses which adversely affect our business, results of operations and financial condition.

30. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. In the past, we have not made dividend payments to the Shareholders of our Company. The Company may decide to retain all future earnings, if any, for use in the operations and expansion of the business. In such situation, the Company may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot state with any certainty whether we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

31. *In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.*

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the Chapter "Objects of the Offer" on page no. 48 of the Draft Letter of Offer. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

32. *We are dependent on our Individual Promoter, Mr. Vipul Lathi for their expertise and market goodwill. Our separation, if any, from our Promoter may adversely affect our business.*

We are dependent on our Individual Promoter, Mr. Vipul Lathi for their expertise and market goodwill and our separation from our Promoter may adversely affect our business. We believe that our Promoter lends strength to the trust and reliability reposed in us and enables us to attract and retain fresh talent. Our separation, if any, with our Promoter for any reasons whatsoever shall adversely affect our business and results of operations.

33. *Excessive reliance on our information technology systems and their failure could harm our relationship with customers, expose us to lawsuits or administrative sanctions or otherwise adversely affect our provision of service to customers and our internal operations*

As part of our business strategy, we use our information systems and the Internet to deliver services to and perform transactions on behalf of our customers. We have in the past not experienced disruptions of service to customers, but there can be no assurance that we will not encounter disruptions in the future due to substantially increased numbers of customers and transactions or for other reasons. If we experience system interruptions, errors or downtime which could result from a variety of causes, including changes in technological failure, changes to systems, linkages with third-party systems and power failures or are unable to develop necessary technology, our business, prospects, financial condition and results of operations could be materially adversely affected. Our hardware and software are also subject to damage or incapacitation by human error, natural disasters, power loss, sabotage, computer viruses and similar events or the loss of support services from third parties such as Internet service providers. We may encounter delays or other difficulties incorporating new services and businesses into our information technology systems and there can be no assurance that we will realize the efficiencies and other benefits we anticipate from doing so.

34. *Significant security breaches in our computer systems and network infrastructure, fraud, systems, failures and calamities would adversely impact our business.*

We are required to protect our computer systems and network infrastructure from physical break-ins as well as security breaches and other disruptive problems caused by our increased internet connectivity. Computer breakings and power disruptions could affect the security of information stored in and transmitted through these computer systems and networks. These concerns will intensify with our increased dependence on technology. We employ security systems, including firewalls and password encryption, designed to minimise the risk of security breaches but there can be no assurance that these security measures will be successful. Breaches of our security measures could affect the security of information stored in and transmitted through these computer systems and network infrastructure. A significant failure in security measures could have a material adverse effect on our business and our future financial performance

35. *Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company*

Our Company is engaged in the business of merchant banking, providing services such as underwriting, portfolio management, investment advisory, corporate finance, and related financial services, being part of the service sector industry which attracts tax liability such as Goods and Services Tax and Service Tax as per the applicable provisions of Law. We are also subject to labour laws including depositing contributions with Provident Fund and ESI. However, we have deposited the required returns under various applicable Acts, but any demand or penalty raised by the concerned authority in the future for any previous or current year may affect the financial position of the Company.

36. *Major fraud, lapses of internal control or failures on part of the employees could adversely impact the company's business*

Our Company is vulnerable to risk arising from the failure of employees to adhere to approved procedures, system controls, fraud, system failures, information system disruptions, communication systems failure and interception during transmission through external communication channels or networks. Failure to protect fraud or breach in security may adversely affect our Company's operations and financial performance. Our reputation could also be adversely affected by significant fraud committed by our employees, agents, customers or third parties.

37. *We have not identified any alternate source of raising the funds required for the object of the Issue and the deployment of funds is entirely at our discretion and as per the details mentioned in the section titled "Objects of the Issue".*

We have not identified any alternate sources of funding for the purposes of achieving the objects of the Issue. The funds proposed to be raised through this Issue will be deployed entirely at the discretion of the Board of Directors of the Company, in accordance with the details set forth in the section titled “Objects of the Issue” in this document. The absence of alternate sources of funding implies that if the Issue does not raise the intended funds, or if there is any delay or shortfall in the receipt of proceeds from the Issue, we may face limitations in executing our business plans, expansion strategies, or other activities outlined under the “Objects of the Issue.” This may have an adverse impact on our operations, financial condition, and overall growth prospects.

38. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price.*

Post-Issue, the market price of our Equity Shares may be subject to significant fluctuations due to various factors, such as changes in domestic and global economic conditions, performance of the capital markets sector, investor sentiment, regulatory developments, and other factors beyond the Company’s control. Consequently, investors may not be able to sell their Equity Shares at or above the Issue Price, and the value of their investment could decline.

RISK FACTORS RELATED TO EQUITY SHARES

39. *Any further issuance of Equity Shares by our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.*

Any future issuance of Equity Shares by our Company could dilute the investors’ shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

40. *We do not know if one will develop. Our stock price may be highly volatile after the Offer and, as a result, you could lose a significant portion or all of your investment.*

Trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares. Further, we cannot predict the extent to which investor interest will lead to the development of an active trading market on the Stock Exchanges or how liquid that market will become. If an active market does not develop, you may experience difficulty selling the Equity Shares that you purchased. The Offer Price is not indicative of prices that will prevail in the open market following the Offer. Consequently, you may not be able to sell your Equity Shares at prices equal to or greater than the Offer Price. The market price of the Equity Shares on the Stock Exchanges may fluctuate after listing as a result of several factors, including the following:

- Volatility in the Indian and other Global Securities Markets;
- The performance of the Indian and Global Economy;
- Risks relating to our business and industry, including those discussed in this Draft Letter of Offer;
- Strategic actions by us or our competitors;
- Investor perception of the investment opportunity associated with the Equity Shares and our future performance;
- Adverse media reports about us or our shareholders;
- Future sales of the Equity Shares;
- Variations in our quarterly results of operations;
- Differences between our actual financial and operating results and those expected by investors and analysts;
- Our future expansion plans;
- Perceptions about our future performance or the performance of Financial Services Sector companies generally;

- Performance of our competitors in the Financial Services Sector and the perception in the market about investments in the gems and jewellery sector;
- Significant developments in the regulation of the Financial Services Sector in our key locations;
- Changes in the estimates of our performance or recommendations by financial analysts;
- Significant developments in India's economic liberalisation and deregulation policies; and
- Significant developments in India's fiscal and environmental regulations. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share Price could fluctuate significantly as a result of market volatility. A decrease in the market price of the Equity Shares could cause you to lose some or all of your investment.

41. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, the Equity Shares at a particular point in time.*

The price of the Equity Shares will be subject to a daily circuit breaker imposed by all stock exchanges in India which does not allow transactions beyond a certain level of volatility in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by the SEBI on Indian stock exchanges. The percentage limit on our circuit breaker is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker from time to time, and may change it without our knowledge. This circuit breaker effectively limits upward and downward movements in the price of the Equity Shares. As a result, shareholders' ability to sell the Equity Shares, or the price at which they can sell the Equity Shares, may be adversely affected at a particular point in time.

42. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months may be subject to capital gains tax in India if Securities Transaction Tax (STT) has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. In addition, changes in the terms of tax treaties or in their interpretation, as a result of renegotiations or otherwise, may affect the tax treatment of capital gains arising from a sale of Equity Shares.

EXTERNAL RISK FACTORS

43. *Any changes in the regulatory framework could adversely affect our operations and growth prospects.*

Our Company is subject to various regulations and policies. For details see section titled "Our Industry" beginning on page no. 67 of this Draft Letter of Offer. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse effect on our business, financial condition and results of operations.

44. *If there is any change in tax laws or regulations, or their interpretation, such changes may significantly affect our financial statements for the current and future years, which may have a material adverse effect on our financial position, business and results of operations*

The regulatory environment in which we operate is evolving and is subject to change. The Government of India may implement new laws or other regulations that could affect the jewellery industry, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations.

To the extent that we are entitled to certain tax benefits in India which are available for a limited period of time, our profitability will be affected if such benefits will no longer be available, or are reduced or withdrawn prematurely or if we are subject to any dispute with the tax authorities in relation to these benefits or in the event we are unable to comply with the conditions required to be complied with in order to avail ourselves of each of these benefits. Please see “*Statement of Special Tax Benefits*” on page no. 52 for details in relation to possible tax benefits available to our Company. In the event that any adverse development in the law or the manner of its implementation affects our ability to benefit from these tax incentives, our business, results of operations, financial condition and prospects may be adversely affected.

45. *A decline in economic growth or political instability nationally or internationally or changes in the Government in India could adversely affect our business.*

Our performance and the growth of our business are necessarily dependent on the health and performance of the overall Indian economy. In the recent past, Indian economy has been affected by global economic uncertainties and liquidity crisis, domestic policy and political environment, volatility in interest rates, currency exchange rates, commodity and electricity prices, adverse conditions affecting agriculture, rising inflation rates and various other factors. Risk management initiatives by banks and lenders in such circumstances could affect the availability of funds in the future or the withdrawal of our existing credit facilities. The Indian economy is undergoing many changes and it is difficult to predict the impact of certain fundamental economic changes on our business. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit, a downgrading in India’s sovereign debt rating or a decline in India’s foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. Any downturn in the macroeconomic environment in India could adversely affect our business, financial condition, results of operation and the trading price of our Equity Shares. Volatility, negativity, or uncertain economic conditions could undermine the business confidence and could have a significant impact on our results of operations. Changing demand patterns from economic volatility and uncertainty could have a significant negative impact on our results of operations.

Further, our performance and the market price and liquidity of the Equity Shares may be affected by changes in exchange rates and controls, interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India. The GoI has traditionally exercised and continues to exercise a significant influence over many aspects of the economy. Our business, the market price and liquidity of the Equity Shares may be affected by changes in GoI policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India.

46. *Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely

affect our business. In addition, any deterioration in relations between India and Pakistan might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

47. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

48. Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our Company's business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could harm our Company's business and financial performance and ability to obtain financing for capital expenditures.

49. Conditions in the Indian securities market and stock exchanges may affect the price and liquidity of our Equity Shares.

Indian stock exchanges, which are smaller and more volatile than stock markets in developed economies, have in the past, experienced problems which have affected the prices and liquidity of listed securities of Indian companies. These problems include temporary exchange closures to manage extreme market volatility, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected. Further, a closure of, or trading stoppage on, either of the Stock Exchanges could adversely affect the trading price of our Equity Shares.

50. Competition in the financial services and capital markets sector

Increased competition may result in pressure on the fees and commissions we earn from our services, reduce our market share, and limit our ability to attract and retain clients. Competitors with larger financial resources, advanced technological capabilities, broader distribution networks, or stronger brand recognition may be able to offer products and services at lower costs or with more attractive

terms, which could adversely affect our business and operations. Additionally, rapid technological advancements and the entry of non-traditional financial service providers may require significant investments from us in upgrading our systems, enhancing service offerings, and adopting innovative business models. Failure to respond effectively to these competitive pressures may result in loss of clients, decreased transaction volumes, and reduced profitability, thereby materially affecting our financial condition, results of operations, and growth prospects.

51. *Volatility in capital markets*

As a merchant banking and financial services firm, our operations are directly linked to the performance of capital markets. Volatility in equity, debt, derivatives, or commodity markets may reduce the demand for our services, affect transaction volumes, and materially impact our revenue and profitability.

52. *Changes in foreign investment regulations*

Any amendments to the foreign direct investment (FDI) or foreign portfolio investment (FPI) regulations in India may affect our ability to attract foreign clients or capital, which could limit our growth and adversely affect our financial results.

53. *Risks from regulatory investigations and enforcement actions*

Any operational, financial, or regulatory difficulties faced by these counterparties may disrupt our normal business operations. For instance, delays or defaults in settlements, failures in payment processing, technical outages, or insolvency events affecting banks, brokers, or clearing houses could result in financial losses, reputational damage, and legal liabilities for our Company. Such events may also delay or prevent us from completing client transactions in a timely manner, which could adversely affect client relationships, reduce client confidence, and impact our revenue.

54. *Global economic and geopolitical risks*

Events such as geopolitical tensions, trade wars, sanctions, global recessions, pandemics, or other international crises may indirectly affect the Indian economy, capital markets, and investor sentiment, which could adversely impact our business, results of operations, and financial condition.

OUR STRATEGIES:

Our objective is to achieve a leading market position in India in the range of businesses that we operate in, compete in the financial sector, and continue delivering superior financial performance. In order to achieve this objective, we plan to pursue the following strategies:

1. Expand our Merchant Banking Activities

Currently our business has revenue verticals, which are professional fees for advisory services, and interest income. We have recently been registered with SEBI as category I Merchant Banker to venture in to Merchant Banking Activities as a SEBI Registered Merchant Banker. Opening up of new listing platform in the form of SME segment can be taken as a great opportunity for merchant bankers and underwrites. It is great platform for small and medium enterprises to raise funds from market and enhance their business. As the number of enterprises will show their interest for raising fund through this platform, we see huge scope in undertaking merchant banking and underwriting activities for all types of public issues.

2. Expansion of our Service Portfolio

With the requisite knowledge and experience in the industry, we already offer various services across the financial sector. However, this being a fragmented industry with large number of players specializing in different verticals of services, there lies an opportunity to expand our service portfolio. We continue our aim to provide increased service offerings to our clients which will help us retain them through better relationship and service and increase our client base. With the strengths of our team, we believe we will be in a comfortable position to take strategic decisions relating to betterment of our company and as and when the opportunity presents, consolidate our range of services and our presence.

3. Increase the number of client relationships

Our strategy is to increase the number of client relationships and then leverage those client relationships into offering in a whole suite of financial products. During downturn of the markets, we believe that increased number of client relationships will add stability to our earnings. As a part of this we also plan to strengthen our team to bring in new client relationships to leverage our offerings. We expect to continue to focus on acquiring and retaining customers, providing innovative solutions to clients' needs, leveraging our past experience to acquire clients through our network, scoping out potential growing businesses seeking to raise capital, for analyzing customer recommendations and tailoring recommendations.

4. To strengthen our Financial Advisory businesses

We intend to maintain our position in the financial market in terms of Issue Management operations by acquiring new clients who will also strengthen our advisory business and increase the number of advisory transactions. We believe that our business provides us with various advantages which we can leverage to improve our ranking in our financial advisory business. For example, our execution capabilities, existing corporate relationships and our corporate access services are all complementary to our financial advisory business. With the goal of strengthening our position, we aim to enhance our market position in the growing IPO/ Issue Management services space while continuing to focus on increasing our market position in the financial and corporate advisory space.

5. Strengthen the brand name

We intend to further increase the brand recognition through brand building efforts, communication and various initiatives, like participation in industry events, public relations and investor relations efforts. The same would enhance the visibility of our brand name and enhance our position and image in the industry. This is also in line with the fact that once we are a listed company on the SME Platform our visibility will further improve.

6. Minimize concentration risk by diversifying the portfolio of services and expanding our customer base

We intend to further improve the diversity of our service portfolio to cater to the various financial needs of our customers and increase the share of income derived from sale of financial services. We intend to leverage our branch and office network to develop complementary business segments and become the preferred provider of financial services - a one-stop shop for our customers' financial needs. We expect that our diverse revenue stream will reduce our dependence on any particular service which will enable us to spread and mitigate our risk exposure to any particular industry, business, and geography or customer segment. Offering a wide range of service helps us to attract more customers and to increase our scale of operations.

7. Continue to attract and retain talented employees and ensure a low attrition rate among senior management:

As part of our business strategy, we are focused on attracting and retaining high quality talent. We recognize that the success of our business depends on our employees, in particular, as we continue to expand our operations. We have recruited and retained talented employees from a variety of backgrounds. We expect to continue to attract talented employees through our retention initiatives and recruitment from local graduate colleges. We intend to invest a significant amount of time and resources for training our employees, which we believe would foster mutual trust, improve the quality of our customer service and place further emphasis on our continued retention.

Global Economy at Large – 2025

The global economy in 2025 is marked by modest expansion amid easing inflationary pressures but continued policy and geopolitical uncertainty. Growth prospects remain uneven across advanced and emerging economies, with significant variation in institutional forecasts.

According to the International Monetary Fund (IMF) World Economic Outlook Update (July 2025), the global economy is projected to expand by around 3.0% in 2025. This represents a slight upward revision from earlier estimates, largely reflecting front-loading of trade and investment ahead of tariff increases, improved financial conditions in some markets, and selective fiscal support. The IMF highlights that while short-term momentum has improved, downside risks remain elevated due to policy uncertainty and trade disruptions. *(Source: IMF World Economic Outlook Update, July 2025)*

In contrast, the World Bank’s Global Economic Prospects (June 2025) provides a more cautious view, forecasting global GDP growth of approximately 2.3%. The Bank emphasizes that higher trade barriers, weaker investment, and limited fiscal space in many emerging economies are weighing on growth. It further notes that the 2020s are shaping up to be one of the weakest decades for global growth since the 1960s, with low-income countries being disproportionately affected. *(Source: World Bank, Global Economic Prospects, June 2025)*

The OECD Economic Outlook (2025) projects global growth at about 2.6%, falling between the IMF and World Bank forecasts. The OECD underlines the impact of ongoing tariff uncertainty, geopolitical risks, and divergent monetary policies across regions. It stresses that the balance of risks remains tilted to the downside, though easing inflation and gradual policy adjustments could provide some support if conditions stabilize. *(Source: OECD Economic Outlook, 2025)*

At the regional level, advanced economies are expected to grow modestly, with the United States projected at 2.0–2.2% depending on the institution, supported by resilient domestic demand. The Euro Area faces weaker growth in the range of 1.2–1.5%, constrained by regulatory headwinds and slower industrial recovery. Among emerging markets, China is expected to grow at 4.0–4.5%, depending on the source, as it balances stimulus with structural reforms. India remains a standout performer, with growth projected at 6.3–6.5%, reflecting strong domestic demand and investment momentum. Low-income countries, however, face slower recoveries of around 4.0–4.7%, challenged by debt burdens, commodity price volatility, and climate risks. *(Sources: IMF WEO July 2025; World Bank GEP June 2025; OECD Outlook 2025)*

In summary, the global economy in 2025 is projected to expand at a moderate pace, with forecasts ranging from 2.3% to 3.0%. The divergence in outlooks reflects varying assumptions about trade policy, fiscal responses, and monetary tightening paths. Businesses and investors must remain cautious, with strategies focused on supply-chain resilience, financial flexibility, and country-level differentiation.

INDIAN ECONOMY AT LARGE

Introduction

India has established itself as one of the fastest-expanding major economies globally, with strong growth prospects over the next decade. Its resilient democratic institutions, favorable demographic profile, and strategic global partnerships are driving this momentum. With ongoing reforms in technology, infrastructure, and industry, India is poised to become one of the leading economic powers in the world in the coming 10–15 years. The country's emphasis on innovation, digital transformation, and sustainable development further strengthens its position as a key player in the global economic landscape.

Market Size

India's economy continues its upward trajectory, with a projected nominal GDP of \$4.19 trillion in 2025, making it the 4th largest globally. The country is also expected to surpass Japan to become the 3rd largest economy by the end of the decade. In the startup ecosystem, India boasts 68 unicorns, positioning it third globally behind the United States and China. These high-growth companies are concentrated in cities like Bengaluru, Mumbai, and Delhi, contributing significantly to employment and innovation. India's foreign exchange reserves stood at \$690.6 billion in May 2025, reflecting strong external financial health. This robust reserve base supports the Indian rupee and provides a buffer against global economic fluctuations. However, to sustain an 8–8.5% GDP growth rate between 2023 and 2030, India aims to create 90 million non-farm jobs, necessitating an annual net employment growth of 1.5%. Addressing this challenge is crucial for maintaining economic momentum and ensuring inclusive development.

Government Initiatives

The Union Budget 2025–26, presented by Finance Minister Nirmala Sitharaman on February 1, 2025, marks another significant step in India's journey toward becoming a developed economy by 2047. The budget focuses on sustainable growth, technological innovation, and inclusive development, building upon initiatives from previous years. The government has allocated ₹50.65 lakh crore for total expenditure, with capital expenditure set at ₹11.21 lakh crore (3.1% of GDP), reflecting a strong push toward infrastructure and industrial development. The fiscal deficit is targeted at 4.4% of GDP, and net tax receipts are projected at ₹28.37 lakh crore.

A major highlight of the budget is the continued emphasis on the Production Linked Incentive (PLI) scheme, with an allocation of ₹1.97 lakh crore spanning 14 sectors including electronics, automotive, textiles, and renewable energy. The scheme has significantly boosted manufacturing, with mobile phone exports reaching ₹2 lakh crore in FY 2024–25, of which Apple alone contributed ₹1.11 lakh crore. Additionally, the newly introduced National Manufacturing Mission (NMM) aims to integrate policy, execution, and governance to promote clean-tech industries such as solar PV modules, EV batteries, and green hydrogen.

Micro, Small, and Medium Enterprises (MSMEs) remain a key focus, with revised investment and turnover limits to support business expansion. The Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE) has increased the credit guarantee cover from ₹5 crore to ₹10 crore, enabling additional credit of ₹1.5 lakh crore over five years. Agricultural and rural development initiatives continue to receive strong support, including ₹67,000 crore allocated to the Jal Jeevan Mission for providing potable water to rural households, alongside the PM Gati Shakti Master Plan aimed at improving rural connectivity and logistics.

Women-centric initiatives have also been strengthened, with the Gender Budget rising to 8.86% of total expenditure, supporting skill development and financial inclusion programs. Notably, Haryana launched the 'Deendayal Lado Lakshmi Yojana,' providing ₹2,100 per month to women from families with an annual income below ₹1 lakh, aiming to empower approximately 20 lakh women aged 23 to 60 years. Digital infrastructure development remains a priority, with plans to establish Atal Tinkering Labs in 50,000 schools and a ₹500 crore National Centre of Excellence in Artificial Intelligence to drive innovation. The BharatTradeNet platform will streamline trade documentation and facilitate export credit access for MSMEs.

Urban development and smart city initiatives also receive attention, with an 'Urban Challenge Fund' of ₹1 lakh crore proposed to support cities in implementing advanced infrastructure projects. Duties on key components for manufacturing LED TVs, lithium-ion batteries, and electric vehicles are being exempted to further promote Make in India. Overall, the Union Budget 2025–26 presents a comprehensive strategy to propel India toward industrial growth, MSME empowerment, rural and urban development, women's empowerment, and digital innovation, reinforcing the country's path toward achieving its vision of a developed nation by 2047.

Some of the recent initiatives and developments undertaken by the Government are listed below:

- In January 2024, Flipkart announced plans to expand its grocery and e-commerce services to over 100 cities in India by mid-2024. Road Ahead

India's economic trajectory remains robust as it continues its journey toward becoming the world's third-largest economy by 2030. The International Monetary Fund (IMF) has projected a 7% real GDP growth for FY2024–25, reflecting a steady recovery and resilience in the face of global uncertainties. This growth is underpinned by strong domestic consumption, infrastructure development, and policy reforms aimed at enhancing economic efficiency and competitiveness.

- **Renewable Energy Transition**

India has made significant strides in its renewable energy sector, achieving a milestone by reaching 50% of its installed electricity capacity from non-fossil fuel sources in 2025, five years ahead of its 2030 target. The country added a record 22 gigawatts (GW) of renewable energy capacity in the first half of 2025, marking a 57% increase compared to the same period in the previous year. This expansion includes 18.4 GW of solar, 3.5 GW of wind, and 250 megawatts (MW) of bioenergy. The total installed renewable energy capacity reached approximately 234 GW by mid-2025, with a target of 500 GW by 2030.

- **Consumer Economy Growth**

India is poised to become the world's third-largest consumer economy by 2025, with consumption expected to triple to \$4 trillion. This growth is driven by rising affluence, urbanization, and changing consumer behaviours. The creator economy is also contributing significantly, with over 2 million monetized content creators influencing more than \$350 billion in consumer spending annually. This figure is projected to surpass \$1 trillion by 2030, highlighting the dynamic nature of India's digital economy.

- **Infrastructure and Employment**

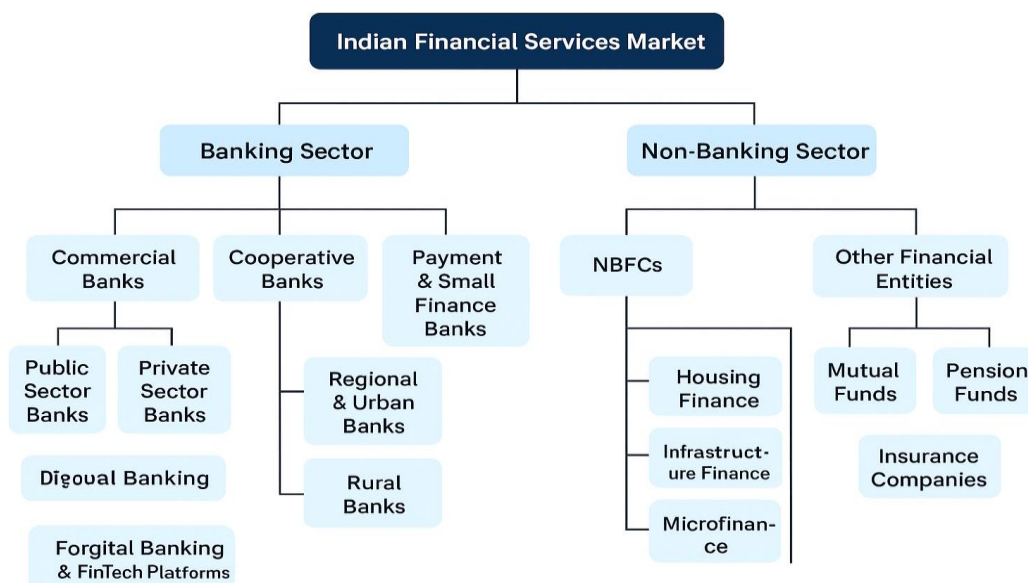

The government's focus on infrastructure development continues, with significant investments in transportation, urban development, and digital infrastructure. The implementation of the Next-generation Goods and Services Tax (GST) and the launch of the PM Viksit Bharat Rozgar Yojana are expected to further streamline processes and create employment opportunities. These initiatives aim to enhance economic efficiency and support the government's vision of a developed India by 2047.

Independent Auditor's Report

To The Members of
Galactico Corporate Services Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying standalone financial statements of **Galactico Corporate Services Limited** ("the Company"), which comprise the Balance Sheet as at **March 31, 2025**, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, are of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon.

Based on our audit of Standalone Financial Statements of the Company for the period under review, we did not come across any material Key Audit Matters to be communicated in our report.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information (If any), but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial

statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit

evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters, if any identified. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Note 2: SIGNIFICANT ACCOUNTING POLICIES:

2.1: STATEMENT OF COMPLIANCE

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

2.2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are required to be measured at fair value by Ind AS.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: Inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Inputs are unobservable inputs for the asset or liability.

2.3. USE OF ESTIMATES

The preparation and presentation of financial statements requires the management to make estimates, judgements and assumptions that affect the amounts of assets and liabilities reported as on the date of financial statements and the reported amount of revenues and expenses during the reporting period. Accounting estimates could change from period to period. Actual results could differ from these estimates. Appropriate changes in estimates are made as and when the Management becomes aware of the changes in the circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which the changes are made and if material, their effects are disclosed in the notes to the financial statements.

Information about significant areas of estimation, uncertainty, and critical judgements in applying accounting policies that may have significant impact on the amounts recognized in the financial statements are as below:

- **Useful lives of property, plant & equipment:** The Company reviews the useful life of property, plant and equipment and intangible assets at the end of each reporting period. This reassessment may result in change in depreciation and amortisation expense in future periods. The details of the same has been mentioned in below notes to the standalone financial statements.
- **Provisions & contingencies:** A provision is recognised when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

GALACTICO CORPORATE SERVICES LIMITED
CIN: U74110MH2015PLC265578
FOR YEAR ENDED MARCH 31, 2025

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent liabilities are disclosed by way of notes to the accounts. Contingent assets are not recognized.

- **Deferred tax:** The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The details of the deferred tax have been mentioned in below notes to the standalone financial statements.
- **Fair value measurements of financial instruments:** When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including Discounted Cash Flow Model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair value. Judgements include considerations of inputs such as liquidity risks, credit risks and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.4 PRIOR PERIOD ITEMS

Expenses relating to earlier period are debited to profit and loss account, if any. As per information and explanation and records kept by the Company, the amount of such expenses and incomes are not fully quantifiable.

2.5 CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.6 PROPERTY, PLANT & EQUIPMENT

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The estimated useful lives of assets are in accordance with the Schedule II of the Companies Act, 2013 except for office equipment.

Gains or losses arising from de-recognition / disposal of a Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized / disposed of.

An impairment loss, if any, is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The Company incorporated on June 15, 2015 and have registered office at Nashik.

The functional and presentation currency of the Company is Indian Rupee ("₹") which is the currency of the primary economic environment in which the Company operates.

Note 2: SIGNIFICANT ACCOUNTING POLICIES:

2.1: STATEMENT OF COMPLIANCE

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

2.2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are required to be measured at fair value by Ind AS.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: Inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Inputs are unobservable inputs for the asset or liability.

2.3. USE OF ESTIMATES

The preparation and presentation of financial statements requires the management to make estimates, judgements and assumptions that affect the amounts of assets and liabilities reported as on the date of financial statements and the reported amount of revenues and expenses during the reporting period. Accounting estimates could change from period to period. Actual results could differ from these estimates. Appropriate changes in estimates are made as and when the Management becomes aware of the changes in the circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which the changes are made and if material, their effects are disclosed in the notes to the financial statements.

Information about significant areas of estimation, uncertainty, and critical judgements in applying accounting policies that may have significant impact on the amounts recognized in the financial statements are as below:

- **Useful lives of property, plant & equipment:** The Company reviews the useful life of property, plant and equipment and intangible assets at the end of each reporting period. This reassessment may result in change in depreciation and amortisation expense in future periods. The details of the same has been mentioned in below notes to the standalone financial statements.
- **Provisions & contingencies:** A provision is recognised when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

GALACTICO CORPORATE SERVICES LIMITED
CIN: U74110MH2015PLC265578
FOR YEAR ENDED MARCH 31, 2025

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent liabilities are disclosed by way of notes to the accounts. Contingent assets are not recognized.

- **Deferred tax:** The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The details of the deferred tax have been mentioned in below notes to the standalone financial statements.
- **Fair value measurements of financial instruments:** When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including Discounted Cash Flow Model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair value. Judgements include considerations of inputs such as liquidity risks, credit risks and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.4 PRIOR PERIOD ITEMS

Expenses relating to earlier period are debited to profit and loss account, if any. As per information and explanation and records kept by the Company, the amount of such expenses and incomes are not fully quantifiable.

2.5 CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.6 PROPERTY, PLANT & EQUIPMENT

All the items of property, plant & equipment are stated at historical cost net of recoverable taxes, less accumulated depreciation, and impairment loss, if any. The cost of a Property, Plant & Equipment comprises its purchase price or construction cost, any costs directly attributable to bringing the asset into its present location and the condition necessary for it to be capable of operating in the manner intended by the management, and also taking into account the initial estimate of any decommissioning obligation, if any, and Borrowing Costs for the assets that necessarily take a substantial period of time to get ready for their intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The estimated useful lives of assets are in accordance with the Schedule II of the Companies Act, 2013 except for office equipment.

Gains or losses arising from de-recognition / disposal of a Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized / disposed of.

2.7. DEPRECIATION /AMORTISATION

PROPERTY, PLANT & EQUIPMENT

2.8 IMPAIRMENT

At each balance sheet date, the company reviews the carrying amounts of its assets to determine whether there is any indication that those assets suffered any impairment loss. If any such indication exists or when annual impairment testing for an asset is required, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. An impairment loss, if any, is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use.

Limited Review Report on Unaudited Quarterly and Half Yearly Consolidated Financial Results of Galactico Corporate Services Limited under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

To the Board of Directors of
Galactico Corporate Services Limited

1. We have reviewed the accompanying Statement of unaudited consolidated financial results of **Galactico Corporate Services Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group") for the Quarter and Half Year ended September 30, 2025 ("the Statement"), being submitted by the Holding Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations").
2. This Statement, which is the responsibility of the Holding Company's management and has been approved by the Holding Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standards ("IND AS") specified under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion. We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

4. The Statement includes the results of the following entities:

Name of the Entity	Relationship
Instant Finserve Private Limited ("IFPL")	Subsidiary
Seven Hills Beverages Limited ("SHBL")	Subsidiary
Palwe Pest Control Private Limited ("PPCPL")	Step Down Subsidiary (Subsidiary of SHBL)
Ronak Global Trade (RGT) SARL	Associate of IFPL
Shree Adinath Steel Private Limited	Associate of IFPL

5. Based on our review conducted and procedures performed as stated above and based on the consideration of the review reports of the other auditors, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with applicable Ind AS and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement.
6. We did not review the interim financial statement of Instant Finserve Private Limited (Subsidiary), Seven Hills Beverages Limited (Subsidiary), Palwe Pest Control Private Limited (Step-down Subsidiary) and Ronak Global Trade (Associate of IFPL) and Shree Adinath Steel Private Limited (Associate of IFPL) included in the consolidated quarterly financial results and consolidated year to date results, whose consolidated interim financial statements reflect total assets of Rs. 6374.27 lakhs as at 30th September, 2025; as well as the total revenue from operations of Rs. 979.86 lakhs as at quarter ended 30th September, 2025.
7. These interim financial statements and other financial information have been reviewed by other auditors whose report(s) has (have) been furnished to us by the management, and our conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate, is based solely on the report of such other auditors and the procedures performed by us as stated above.

Our conclusion on the Statement is not modified in respect of the above matter.

(a) **Criminal proceedings against our Company:** NIL

(b) **Company Law Litigations against our Company:**

Cases under National Company Law Appellate Tribunal:

1) Shailaja Vaibhav Patil & Anr vs. Galactico Corporate Services Limited

Galactico Corporate Services Limited had participated in the Corporate Insolvency Resolution Process ("CIRP") of Silveroak Commercials Limited (the "Corporate Debtor"). The petitioners, Mr. Vikas Malekar and Ms. Shailaja Patil, being the erstwhile directors of the Corporate Debtor, had filed an appeal before the National Company Law Appellate Tribunal ("NCLAT") challenging the liquidation order passed by the National Company Law Tribunal ("NCLT") vide its order dated December 16, 2020. The petitioners sought directions for reconsideration of the resolution plans submitted by the Company and other applicants. The Company has been impleaded in the said appeal solely on this ground. However, as the resolution plan previously submitted by the Company is no longer operative, the outcome of the said appeal is not expected to have any material financial or other impact on the Company.

2) Citi Co-Operative Credit and Capital Limited

Galactico Corporate Services Limited participated in the Corporate Insolvency Resolution Process ("CIRP") of Silveroak Commercials Limited (the "Corporate Debtor"), which was admitted into CIRP on May 1, 2019. The Company had submitted a resolution plan for the revival of the Corporate Debtor, which was accepted by the petitioner but failed to secure the requisite approval from the Committee of Creditors ("CoC") due to insufficient voting in its favour, with Nashik Merchant Cooperative Bank Ltd. holding 81.45% voting share strongly opposing the plan. Consequently, as no resolution plan was approved, the Corporate Debtor was ordered to be liquidated by the National Company Law Tribunal ("NCLT") vide order dated December 16, 2020. The petitioner, being a member of the CoC, filed an appeal before the National Company Law Appellate Tribunal ("NCLAT") challenging the liquidation order and seeking reconsideration of the resolution plans submitted by the Company and other applicants. The Company has been impleaded in the appeal solely in this context. However, since the resolution plan earlier submitted by the Company is no longer operative, the outcome of the appeal is not expected to have any material financial or other impact on the Company.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion)(“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Circular**”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non - resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.
